By Associated Press. WASHINGTON, July 19.—Senator ins, opening the tariff debate today for the Progressive Republicans, declared that the Republican party lost the confidence of the people and "was driven from power largely because it insisted upon the maintenance of import duties, many of which were un necessarily and oppressively high."

"The Democratic party," he assert-ed, "will soon be overtaken with like disaster because it is about to inflict upon the country a tariff law which, with respect to many things, invites the perils of free trade, and which, with respect to others, imposes duties that are dangerously and destructively low and which, from end to end, grievously discriminates against the West in favor of the East-that is to say in favor of the manufacturer against the farmer.

"The Republican craft went down in the whirlpool of Scylla in 1912, and its Democratic successor is steering straight for the rocks of Charybdis, where it will go to pieces in the stress of 1916.

learn that the only way to please and serve God is to do good to other men, unforced and in his own divine right. "The world is indeed full of misery," Jefferson said, "and we must learn divide it with one another," but this was his religion, not his politics. He believed that no honest man could wish to govern another or to control him by force. He held it the business of government so to liberate man that he could answer to God for doing good to others wronging others. In "Thomas Jefferson, His Permanent Influence on Amer-lean Institutions," Senator Williams shows that, politically, Jefferson represented evolutionary forces which are never out of date. # The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed conterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves but the child has to rely on the mother's watchfulness.

#### BRIDGE APPROACH QUESTIONS.

Councilman Arendes is right when he says that it is impudent on the part of the Alton & Mississippi promoters to take the time of the Municipal Assembly to consider a proposal the identity of whose backers is concealed. The city of St Louis cannot afford to entangle the free bridge project with a lot of underground adventurers wh want to deal unseen and discuss public interest

The Municipal Assembly ought not to conside the A. & M. proposal until full information is given concerning the company, its property and resources. Members of the Assembly should have complete knowledge of the assets of the company and be assured by actual proofs that it can deliver the privileges it promises. The city cannot afford to hamper the bridge project with doubtful contracts and vague promises and possibilities. The city must demand deeds for property and rights of way and definite contracts with responsible parties, if the proposal is to be accepted. In addition to complete details and assured assets the broader questions of the availability and advantage of the approach must be determined Is it wise to make a privately owned and controlled belt line the sole entrance to the bridge? Is it advantageous to build a long approach without opportunity for railroad connections, to reach privately owned and controlled belt line?

### Negroes Lack Opportunity. To the Editor of the Post-Dispatch.

In looking over Thursday's edition of you paper I saw a letter of a waiter's wife, with her lews of the condition of the strike.

I am an ex-negro waiter, worked at the business about 20 years, in probably some of the best hotels in the United States. The great difficulty in waiting tables is that the hotels are filled with foreign waiters instead of Americans, the majority of which cannot speak good English. The lady in last night's paper thinks that the negro should not have any employment and she asks the sympathy of the business men. The negroes' forefathers were brought to this counagainst their wishes and should be provided with employment of some kind, which waiting tables was one of their first after they were set free. Now since they have taken his razor away and his whitewash brush and don't want him to be a domestic servant, what chance has he got? EX-NEGRO WAITER.

#### SPEECH ABOUT NOTHING.

RIENDS: I will make a speech about nothing. This is an old subject and a great many speakers have addressed themselves to it; but I do not believe they have done it justice. I have heard Mr. Bryan work at it. You can hear him yourself this time of the year. You have only to he is Secretary of State now, but that doesn't make any difference. Mr. Bryan has been talking about nothing all summer for years, and he isn't going suddenly to shut up and sit down just because he has been put on and the national administration writing the Federal payroll. It might be termed a nervous affection. You know and revising and rewriting and re-retramps die if you put them in jail. They have to tramp. It is exactly the same with people who go about talking about nothing. If Mr. Bryan stayed in Washington this summer he would waste away. He would grow wrinkled Was the former sailor asleep in the lookand shriveled You have seen a bird pine away in a cage. There you have it. He would die, my friends.

But about nothing: Mr. Bryan is very poor on this subject. All our ors tors are. Why, I don't know. I think it is a grand subject. Did you ever hear Speaker Clark on it? That will give you some idea of its possibilities. Not that I think he does it justice, either; but he is at home on it. He knows what he is talking about. I have known Mr. Clark to talk about nothing with such effectiveness that everyone who heard him talked about nothing for the next two or three weeks.

Now, friends, there are some public speakers who cannot talk about nothing. These, however, are not orators. They are men like Col. Roosevelt and President Wilson. If one heard men of that type too often, one would actually forget what nothing is. It is good idea to go around afterward

Strange to say, nothing pays. This is not costing you anything, but it i only free for being a sample. You will pay from 25 to 50 cents to hear the same thing by Mr. Bryan, and he will get \$250 for saying it. There are men making a living at it. I do it for pastime. I need the money, but I dislike to make a living that way. I would much rather talk about some thing, if I could do that, and make a great deal less. Unfortunately, there are very few of us who can talk about something. Aside from the two men I have mentioned, I cannot think of anyone just now. But about ble to soold and whip their children and nothing God help us, friends—until fall, anyway.

Right now Johnson is serving the las stanza of his three-year contract with the Nationals. He signed the document at the beginning of the 1911 season, afta misunderstanding with James R. McAleer, then manager of the Capital

years' work. He signed that contract after he had reported to the training camp, returned to his Coffeyville (Kan.) se and then rejoined the team in the East after the season had opened.
Will Probably Draw \$10,000.

Johnson's value to the Washington club is generally rated more than Ty Cobb's usefulness to the Detroit team. But Johnson will hardly draw down \$12,500, the salary Tyrus is alleged to be receiving from the Tigers this sea-

is slipped a contract calling for \$10,000 salary for 1914, or one for \$30,000 for service during the next three years. Sir Walter is worth almost any price he asks. But he's of a different disposi-tion than T. Raymond Cobb and for that reason will probably serve at a lower figure than the Peach draws.

It is Johnson's disposition as Asset.

It is Johnson's disposition, as well as his wonderful speed and curves, that makes him a valuable member of the Washington team. The National players have it sized up pretty well, too. As one member of the party said:

Griff is not making the mistake of overworking Johnson, as different managers of the White Sox overburdened Ed Walsh, with the result that the Big Moose is nearing the end of his rope, although a fairly young man.

The Mationals have a chance for this year's permant. It is only an outside one, however, and Griff realises that Johnson can't win it alone. He'll have to have some aid from the other hurlers of the club. But should they, with Johnson taking his regular turn and occasionally finishing a game or two of the pacemakers, he'd de more than his share towards trying to land the flag.

Fine Grain Is Influenced by Favorable Weather in Northwest-Coarse Grain Reflects Buying Despite Lower Temperatures.

SATURDAY'S COMPARATIVE FUTURE QUOTATIONS.

Reported by St. Louis Merchants' Exchange. ST. LOUIS, July 19. SEPTEMBER WHEAT. DECEMBER Wheat was dull and easy Saturday on a favorable weather map. Corn reflected some selling on a complete break in the hot wave over the Central West and Southwest. Oats were irregular. Broomhall's Liverpool cable said:

"The steadier American cables yesterday and the light American shipments as indicated by Bradstreet's, served to stimulate covering among shorts, and prices at the opening were 4d higher following the opening there was an additional gain of 4d, with reports of less favorable weather in Russia, a decline in consois and firmer offers of American winters. There is a better Continental demand for cargoes and rumors of free overnight takings. At the close the market was steady and 4d higher than yesterday."

"Corn opened 4d higher and later further advanced 4d with the undertone steady. The strength in America, better spot demand and improved demand for parcels, together with firmer Plate offers, helped the advance. Minneapolis wheat cars totaled 76, against 91 last week and 30 last year. Duluth, 56, against 111 and 212.

The Peorla Government Bureau says the total rainfall recorded in Peorla this year, first 19 days of July, is 38-100 of an inch; last year, same period, it was nearly 3 inches. As August is seldom and and corn futures closed 4d higher. Antwerp wheat 4c higher. Berlin 4c higher. Budapest 4c higher. Paris wheat unchanged; flour thorrest.

Existence Revealed in London Speech to Anglo-Saxon Club by Ambassador Page.

JOHN D. NOT THE DONOR

Number of Rich Americans Arrange for Fight on Diseases, Anemia Among Them.

LONDON, July 19 .- The casual remark

made by Ambassador Page Thursday night at the dinner of the Anglo-Saxon Club, when he spoke of a \$100,000,000 dohealth campaign, has more behind it than at first appeared. To the London Daily Chronicle Page has given further details, though withrevealing who was the donor, of great sum set aside for fighting

but this Page expressly denies. Income of \$5,000,000 Yearly.
The money has been subscribed by number of American men and will be mittee, who will have an income of study and cure of diseases among na-

It was pointed out that in the great Europe the evil of anemia was in ur-

"In the case of native races," said the Ambassador, "you might feed up sufferers from anemia, place them in its precincts he has been conducted to the best environments and give them the nearest water boundary and told

"What we want is to find out the cause of the disease and then it can be treated, perhaps eradicated. That is one of the purposes for which the international health committee is set up." In his opinion, the whole character of native races would be changed if it were found possible to eradicate anemia and kindred diseases and then the so called yellow peril might become real menace to Western civilization.

Involves World Leadership. 'we shall have a different type of man the West Indies, Central America and the Philippines. When that time comes the leadership of the world will not be

The Morning Post, in an editorial dealing with the subject, expresses its ad iration for what it terms Page's first t gives ample assurances that he will market by steamboat. This is how the ambassadors to Great Britain. The edi torial adds that Page could have chos

"Read, nigger, then run." Occasionally when a negro not a Calhoun, has ventured somehow into the best possible chances and then find that there is no time to wait for the ferry. It has been a matter of swim ming the Mississippi or the Illinois. Throughout the length, which is con nuch to mention, of Calhoun there i no negro, not even a transient. "This is white man's country," as Tillmon Joy remarked tauntingly in John Hay' Banty Tim" ballad, which had to do with a Calhoun episode wherein the populace was about to run a civil war soldiers' faithful body servant out of

No Railroads in

If Calhoun had any railroads which it hasn't, there is high proba bility that the white man's country would not have capitulated to the negro roustabout to the extent of taking orders from him this week Calhoun raises much produce, including a great quantity of wheat and apnotable utterance in England and says ples, all of which must be shipped to worm, so to speak, got the upper hand.

In the busy season the roustabout celling independent. He earns some imes as much as \$150 a month. He is n great demand, and as everybody knows, he is always a negro, for roustabouting on river steamboats doesn't eem to appeal to a white man.

There was a great deal of wheat to Calhoun towns this week. In the packet house at Hardin were several housand sacks awaiting shipment.

The negroes wouldn't budge, and big mulatto who knows the river al the way up from Natchez informed the mate that they wouldn't budge at all until the wheat sacks were carried down to the end of the gang plank. They couldn't afford to risk going up into Calhoun County to tote those sacks lown. It was too dangerous, Besides the weather was hot.

The mate stormed, but the darkies sang "A Hot Time" and other choice selections. The wheat shippers stood selections. The wheat shippers stood firm until they were convinced that un-less they yielded the point their grain would remain unmarketed. Then they gave in. Amount in Bill Covers Expense of Approach for the Manufacturers' Railway.

By unanimous vote the House e Delegates Friday night passed a bill authorizing a special election Nov. 4 on a bond issue of \$3,500,000 for the completion of the free bridge. The amount of the bond issue, as pecified in the bill, is \$750,000 in ex-

cess of the amount voted on at the general election last November. This sum was included for the purpose of building a southern approach, in St. this race exclusion law, unwritten ex-cept for such signs as this posted at usko street for the benefit of the Manufacturers' Railway Co., owned by the Anheuser-Busch Brewery. The amount fixed in the bill is the quainted with the race exclusion act of same as the original bond issue,

\$3,500,000, use for construction of the ridge and the west side approach. If the plans of the House of Delegates are accepted by the people and the southern approach is constructed, the cost of the bridge will run up to \$7,000,000, not counting the expense of the numerous special bond issue elections.
